---

İzmir, Turkey • [haktanyucesoy936@gmail.com](mailto:haktanyucesoy936@gmail.com) • +90 531 782 40 08

### Education

#### DOKUZ EYLUL UNIVERSITY

Management Information Systems

İzmir, Turkey

September 2017 – July 2025

#### PRIVATE İZMIT OKYANUS ANATOLIAN HIGH SCHOOL

[92.75/100.00]

Kocaeli, Turkey

2013 – 2017

### Experience

#### Codeo Engineering

and IT Industry

Trade Limited

Company

İzmir, Turkey

#### Junior Full Stack Developer

Oct 2022 – Jan 2025

- Worked on 3D model uploading, conversion to viewable formats, and rendering through a viewer using Autodesk Platform Services API, implemented as part of the **Veewer** project. Contributed to API development using ASP.NET Core Web API and front-end development with React. Additionally, utilized and gained proficiency in technologies including Graph API, Box API, AWS S3, Cognito, Google Drive API, Redis, MongoDB, and Azure for cloud integrations.

#### HRSP Consulting Services A.S.

Remote

#### Software Developer

Jul 2022 – Sep 2022

- In this company, I developed user interfaces for web projects integrated with the existing SAP HR module using React. During my tenure, I also acquired foundational knowledge of the SAP HR module to better understand the system.

#### Cortex Technology A.S.

Remote

#### Assistant Software Developer

Dec 2021 – Jun 2022

- At the company where I previously interned, there was a project called Vimeo, which utilized a microservices-based back-end architecture. While the project was being redeveloped, I contributed by adding new modules to the back end using the existing back-end structure. The work primarily involved ASP.NET Core Web API and SQL Server technologies.

#### Cortex Technology A.S.

Remote

#### Software Development Intern

May 2021 – Nov 2021

- In this internship, we learned the basics of what microservice architecture is and how a microservice structure is created. How to create a database structure in a microservice structure. Designs were made on ER diagrams and worked with examples. Apart from this, I used ASP.NET Core Web API, C# and SQL Server technologies within the framework of the given tasks.

#### Radity

Remote

#### Microsoft .NET Dynamics 365 Developer Intern

Dec 2020 – Apr 2021

- In this internship, I tried to find out how the Microsoft Dynamics environment is in general, and I learned how to develop an in-house application with this Low-Code platform and became part of the development partly part of the development.

## Kadir Haktan Yücesoy

### Codeo Engineering and IT Industry Trade Limited Company

Remote

#### Project Intern

Sep 2020 – Dec 2020

- During this internship, I learned the basics of Autodesk Platform Services API (formerly Autodesk Forge). In my final month, I participated in the annual Autodesk Platform Services Hackathon with two friends and my manager. We developed a data visualization project idea that I proposed, and our project won first place in the Data Visualization category.

### VBT Information Technology A.S.

Remote

#### Software Development Intern

Sep 2020– Sep 2022

- During this internship, I learned how to develop a mobile application and explored best practices in the process. Most of the training focused on Flutter, but I also gained insights into back-end architecture. It was not solely a mobile development internship. At the end of the program, we worked in groups to develop a mobile app project. My group created a small app for finding Turkish English word translations, where I primarily worked on the back end using Node.js and MongoDB.

### Alaska Technology A.S.

Remote

#### Software Development Intern

Oct 2019 – Mar 2020

- During this internship, I worked on the back-end development of a web-based Decision Support System project. I developed the API that communicated with the front end, which was built using React. I primarily used ASP.NET Core Web API and SQL Server technologies and contributed to the project using a multi-layered architecture.

## Skills & Interests

**Technical:** C#, Python, Java, JavaScript, TypeScript, Microsoft SQL Server, MongoDB, Redis, MySQL, React, ASP.NET Core Web API, Node.js, RabbitMQ, Clean Architecture, Microservices, Angular and Git.

**Language:** Turkish (Native), English (B1 Intermediate)

**Interests:** Playing Guitar, Hiking and Theater
